Module 3 Wordpress Essential Skills	4 weeks: 5 July - 28 July 4 Oct - 27 Oct	R4 500.00	

Description

If you have surfed the Internet, you undoubtedly have an idea of what Web pages are and have seen some of their capabilities and limitations. However, merely using the World Wide Web will not give you an understanding of how these pages are created. This course presents the basics of this foundational Web technology and enables you to create your own functional pages, followed by integrating sound, video and basic flash animations to create media rich websites.

In this course you will lay the foundation for mastering the Web publishing language HTML. You will use HTML tables and layers to lay out the contents of your Web pages. You will create different kinds of hypertext links, expanding on your existing understanding of links between Web pages. You will create forms and add dynamic multimedia content to your pages in order to increase the interactivity and appeal of the Web pages. You will also apply Cascading Style Sheets (CSS) formatting to elements in new ways and harness the true power of CSS by applying the same styles to multiple documents.

You will learn basic PHP and how to convert your sites into wordpress templates and intergrate social elements to your sites such as blogs, polls, galleries, feedback forms and so much more.

This is a course intended for students interested in learning about how to create Web documents. Students who want to learn basic web design for their own personal use or for business-related purposes will all benefit equally.

General

Please note the following:

- You will be issued with an access tag, this tag needs to be returned on the last night you attend class
- All work will be deleted from our server one month after you complete the course, please ensure that you bring a memory stick to transfer your work.
- Please ensure that all modules are paid in full on the commencement of the course, please supply us with proof of payment to that effect.

Enrolment

Complete and email an enrolment form and proof of payment of your deposit to info@friendsofdesign.net.
